

DCPRO

PROTECT & SAFE

[www.dcproun.pt](http://www.dcproun.pt)

In a context of constant change, **DC PRO** develops special equipment tailored to the market needs. It integrates an offer of innovative products, that may be placed in any closed space, sanitizing it and disinfecting the visitors.

Among these, it is worth to stand out the **DC PRO Cabin**, that allows the disinfection of the user, by spraying him; the **DC PRO Column**, developed to do hands sanitation and **UV-C Robot**, designed to accomplish an effective disinfection of closed spaces through ultraviolet C light.

### Hands Disinfection

Sterilization without physical contact with the dispenser

### Shoe Disinfection

Shoes disinfection system, using disinfectant

### Clothes Sanitation

Indirect vaporization by crossed jets of disinfectant product

### Temperature Control

Real-time body temperature control

### Spaces Disinfection

Closed spaces disinfection with UV-C radiation

#DCPROCOLUMN

# DISINFECTION COLUMN

DC PRO Column counts the number of visitors in your commercial establishment, allowing the definition of capacity and the hands autonomous disinfection. There are four models completely customizable.
